In New Brunswick, nearly 100,000 citizens, minimum-wage workers, welfare recipients, seniors, students, artists, persons with disabilities and Aboriginal persons live in poverty.

This must change!

Vote to
reduce poverty

We have options.

We have five political parties and five electoral platforms.

We must elect candidates from the political party proposing concrete actions to really reduce poverty.

Why vote?

- By voting, we can influence the actions put forward in the electoral platforms.
- By voting, we can decide which Members of the Legislative Assembly and political party we want at the head of the province.
- By voting, we hold elected members accountable for their actions.
- Voting is a democratic right we have earned; we must use it.
